WSU-TC Math 101 Intermediate Algebra Entrance Questionnaire

Initials _____

Major/Year		
1.	Briefly describe your plans and interests. What degree are you working toward? What career?	
2.	Briefly summarize what other math classes or math-oriented work experiences you have had. What do you consider the most important things you learned in them? What were the best aspects of those classes — e.g., the most pleasant or rewarding? What were the worst aspects — e.g., the most frightening, or annoying, or boring?	

3.	What relationship do you see between mathematics and the "real world"?
4.	How do you recognize a problem that's "too hard to solve"? What do you do when a
	problem looks that way?
5	What other math alosses do you plan to take at WCII9
3.	What other math classes do you plan to take at WSU?

(Please complete both sides.)
